## Telecom Alarms Ltd Environmental Policy Statement

Telecom Alarms Ltd as a specialist Company having recognized responsibility for environmental matters, place a particularly high priority on environmental affairs with regard to Company operations and the range of services offered to customers. The Company operates a policy of effecting continual improvement and change in accordance with developing knowledge and changing environmental requirements.

Telecom Alarms Ltd staff is aware of the environmental sensitivity of the business sector in which the Company operates, and seeks to continually develop the Company environmental compliance. Due to the need for continual improvement, it can never be possible to detail fully the Company environmental activities, but the following specific objectives form the basis of the Company Policy .All Company operations must be carried out with due regard to all appropriate and relevant legislation and Regulatory considerations. The Company will continue to make available resources to ensure that suppliers and customers are made fully aware of their environmental, legislative responsibilities and related activities. The Company will take whatever measures may be necessary to ensure that the collection, transportation, storage, recycling, reclamation and disposal of waste do not become hazardous to public health or the environment. Controlled waste (IE general and special waste) must not be stockpiled or treated (including bonfires) at company sites or premises without the appropriate Waste Management License from the Environment Agency (Waste Management Regulations Section 33). The company recognizes that Control of Pollution Act; Duty of Care Regulations gives them responsibility for all of their waste until its final disposal site. Any special (i.e. hazardous) waste such as lead acid batteries must be disposed of according to the Waste Regulations.

Considerate Contractors guidelines will be followed on site as applicable in order to minimize disturbance to the local environment. The Company will only use disposal facilities where the level of operational control and environmental compliance is deemed to be of a suitable level, and represents responsible Waste Management. This therefore means that not all appropriately licensed disposal facilities will satisfy standards required by The Company.

The Company will ensure that vehicles and equipment used are well maintained, clean and are always operated within legal limits, taking advantage wherever possible of engineering modifications to reduce pollution and emissions, and to save unnecessary consumption of energy. The Company operates a continual training program to ensure that staff keeps up-to-date on the safe handling and disposal of all types of waste. The Company will ensure that all transportation and the disposal of waste is covered by the appropriate documentation to ensure that the Duty of Care (Section 34) of The Environmental Protection Act 1990 is fully complied with, regarding Controlled Waste Transfer Notes and waste descriptions. The Company will ensure that every effort is made to police the compliance of third parties within this Legislation. The Company co-operates with, and assists to the best of its ability, officers of the Waste Regulatory Authorities in the exercise of their duties.
